Step by Step: Roman Shoe

Share your shoe: Let us know how you got on by sharing your shoe with us on social media or by emailing us at info@vindolanda.com

You will need:
Pens or pencils | paper | scissors | yarn or string (about four times the length of your shoe)

1.Cut out the shoe (ask an adult to help if needed).

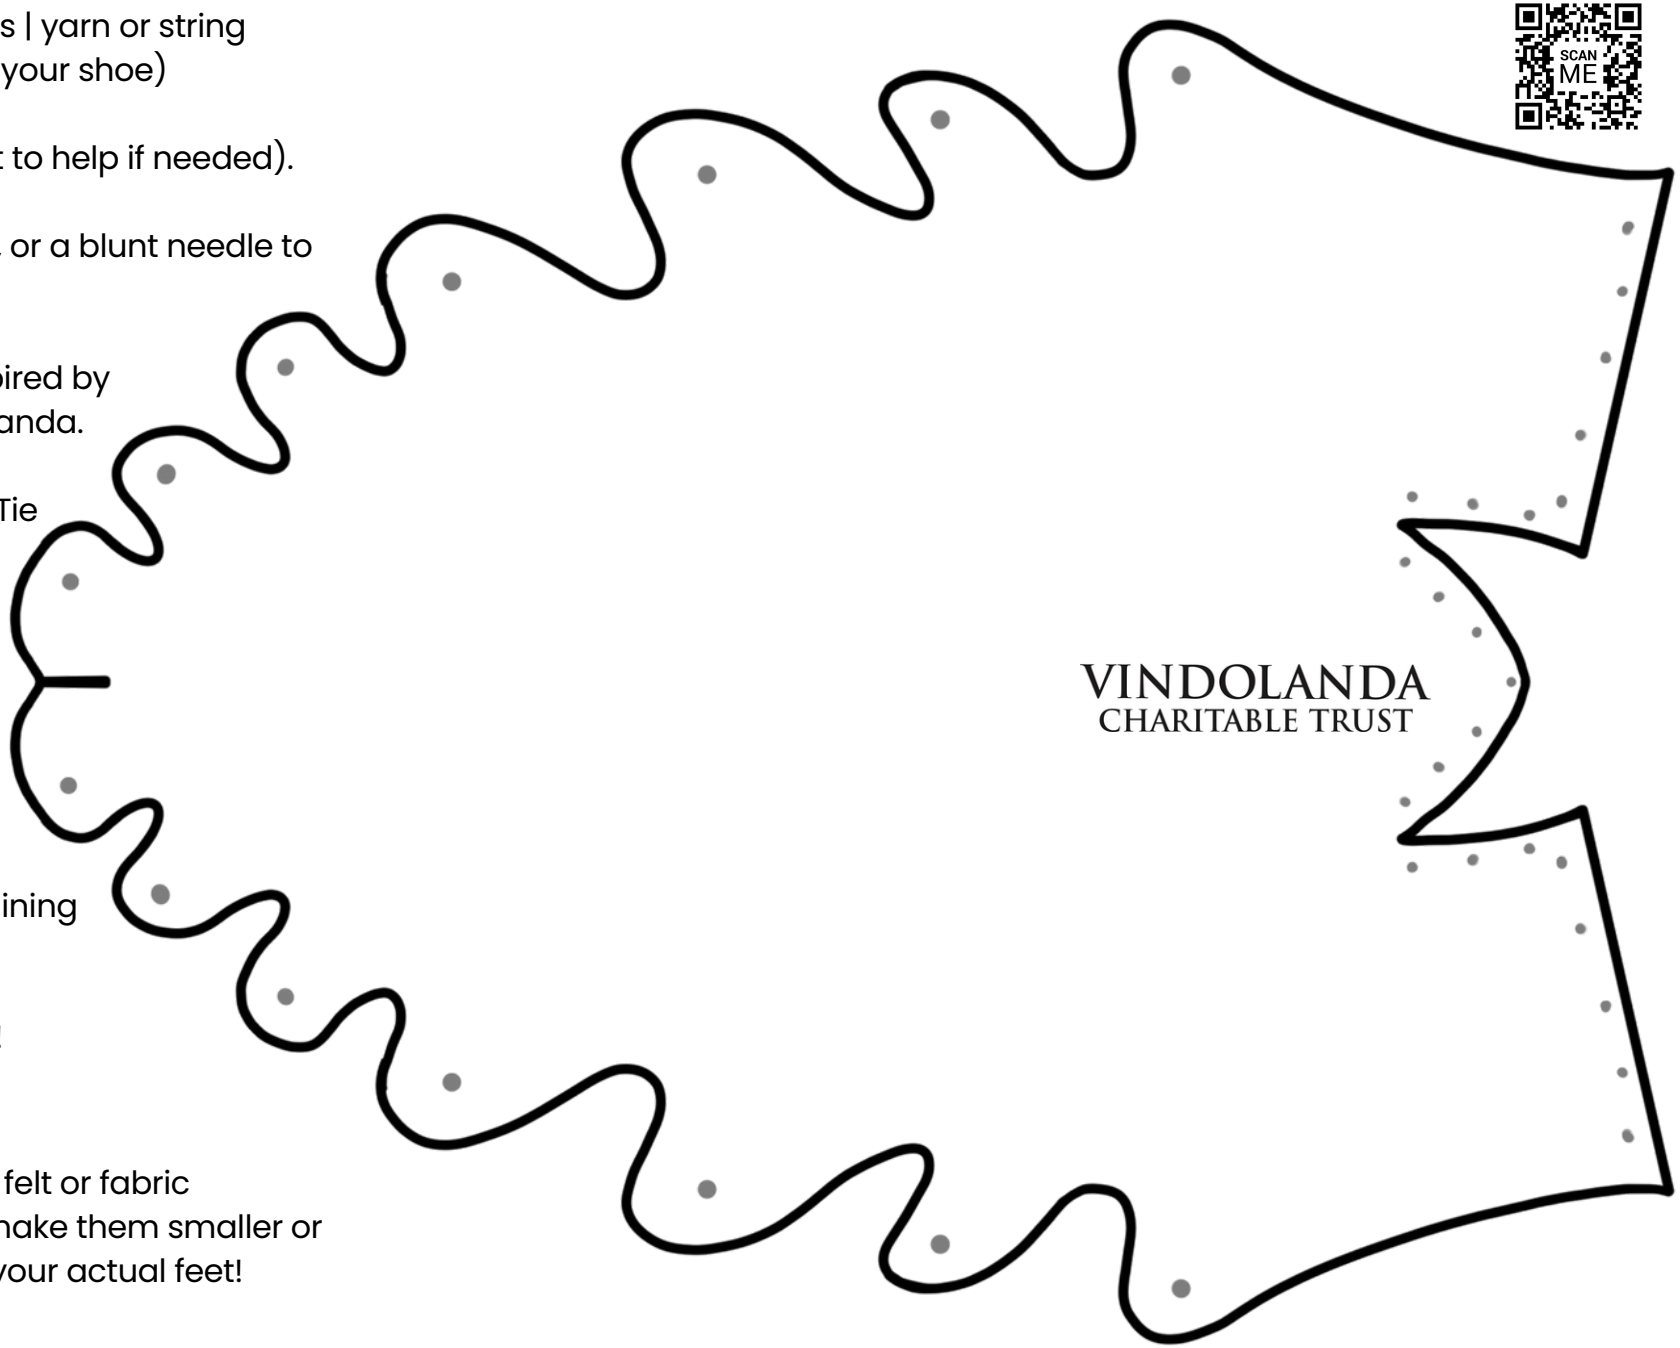

2.Use a pencil/ pen hole punch, or a blunt needle to make holes for the laces.

3.Decorate your shoe - get inspired by our Roman collection at Vindolanda.

4.Sew up the back of the shoe. Tie a knot at the start so the yarn doesn't pull through, and tie off securely at the end.

5.Thread the lace from the outside in, starting at the top. Switch sides with each hole. When you reach the toes, lace back up through the remaining holes and tie a bow at the top.

Your Roman shoe is complete!

Top Tip: You can make it out of felt or fabric for a more durable shoe and make them smaller or larger to fit your teddy bear or your actual feet!
