

Senet

Aim: be the first player to remove all of your pieces off of the board

1) Set up your pieces like this

The squares are called 'houses'. Only 1 piece is allowed in a house at a time.

2) Throw the Senet sticks

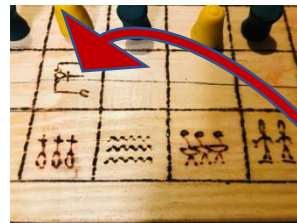

1 colour & 3 plain = move one house then go again
 2 colours & 2 plain = move two houses
 3 colours & 1 plain = move three houses
 4 colours = move four houses then go again
 4 plain = move five houses then go again

3) Keep going until you've removed all of your pieces from the board

If you land on your opponent's piece they must go back to the house that you came from... BUT... if two or more of your opponent's pieces are together they are protected and you cannot land on them!

House of Re-Atoum: throw again. If you throw two colours then remove your piece from the board

This special square is called the House of Rebirth. You must return here if you land on the House of Water.

House of Three Truths: throw again. If you throw 3 colours then remove your piece from the board.

House of Water: return to the House of Rebirth

House of Happiness: every piece MUST land exactly on here to continue. Miss a turn if you can't go.

Senet game found in Tutankhamun's tomb
